

Outside™ GP Wall 3G/4G

Antenna covering the European 3G and 4G bands, LTE I/III/VII/XX (800/1800/2100/2600), for mounting on both metallic and non-metallic surfaces. The antenna is available as wall mount or through hole versions. The antenna can either be connected by RG174 or RG58 cables. Patent pending giving antenna good performance.

The antenna can be supplied with various cable lengths and connectors.

Applications

Data communication

Diversity antennas

Etc.

Technical data

Frequency	800/1800/2100/2600 (3G/4G)
VSWR	< 4:1
Gain	Max 3 dBi
Dimension	130 x 45 mm, thickness 27 mm
Polarization	Vertical
Mounting	2 x 3 mm screws
Color	Grey or White
Connection	1.5 m, 3 m RG174 or 5 m RG58 with SMA/m
Temperature	-40 to +85° C
RoHS Status	Compliant with EU directive 2011/65/EU and 2015/863

Note: Patent pending. EU community design. Subject to change without notice.
